## Sculptures

Year 12 visited the Hannah Peschar Sculpture Garden on Wednesday, as part of their GCSE artwork. They strolled around the park, looking at over 100 different sculptures in different styles, made from a variety of materials such as bronze, copper, oak wood, marble, glass and stainless steel; they were very impressive!

They sat and drew some of the sculptures in their sketchbooks and were totally amazed and shocked when they found out that one of them was worth £66,000!!

Everyone had a fantastic time and thought the garden was really excellent. Hopefully they will have been inspired by the sculptures and it will help them with their work in school... and you never know one of them may produce a sculpture of their own worth more than £66,000!
