Bottles & Tubes

It is our Technology Day next week and we need small plastic water bottles and kitchen roll tubes, which will be used in some of the construction and science competitions.

If you have any bottles and tubes then please bring them to Mr Kent in the Art room.

Plumpton Visit

On Wednesday, Year 11 went to Plumpton College. They did some floristry and used humane traps to find out how many small mammals live around the churchyard. They caught 6 shrews and then returned them to their habitat.

Springwatch

Last year In DT, Peter made a bird box, which he put in his garden.

Peter is very pleased now some birds have made a nest in the bird box. In assembly he showed us some fantastic photos of the birds using their new home...

You can see Peter's photos on the news-board in school.

*Home sweet home.
Thank you Peter.*

House Prize

The winner this week is Reece.

World Cup

Lots of us have been watching the World Cup. Sarah is collecting Match Attax World Cup Cards. If you ask Sarah, she will show you her great collection.

Housepoints

The score last week was
Blue 23 Yellow 19

This week, **Oakley, Oliver and Reece** got points for Blue and **Louis** got a point for Yellow.

Well done!

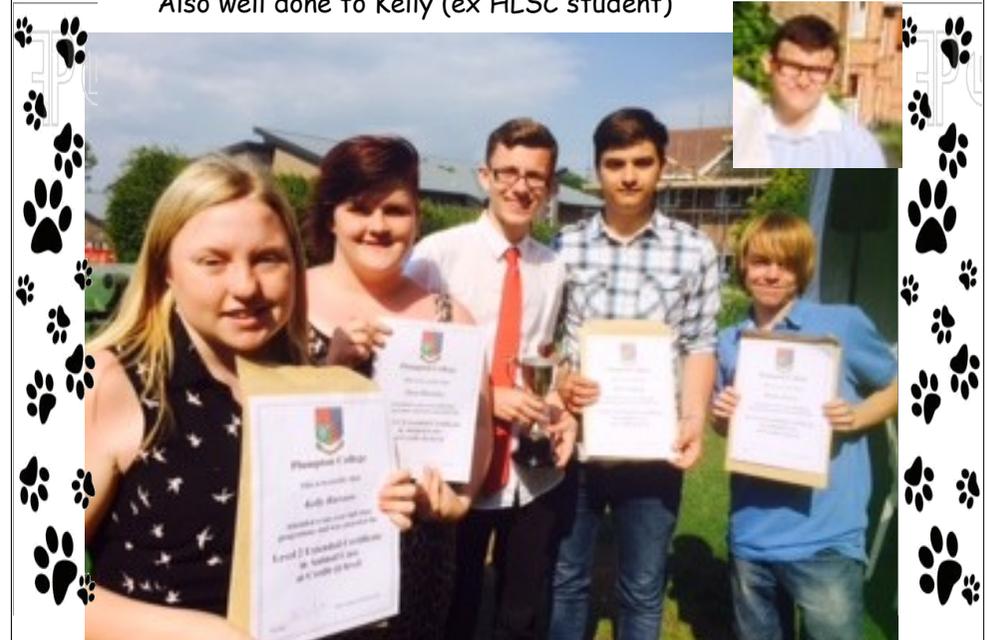

Blue 25 Yellow 20

Top Animal Care Students Awards

Last Friday our FE students at Plumpton College attended the wonderful end of year awards ceremony. Zara, Ronnie and Oliver were awarded their Animal Care Level 2 qualification. Aaron and Ryan were the only two students on their course to achieve Distinction for the Level 1 Animal Care course. Ryan was also presented with an extra award, the Darwin Cup, for Top Practical student from a Level 1 Animal Care Program.

Congratulations to all our students, we are very proud of you all.

Also well done to Kelly (ex HLSC student)

Sealife Centre

Reece, Scott and Patrick went to the Sea Life centre this week. They had a really great time looking at all the amazing animals. They were all really brave and touched a starfish and a crab! They also went on a glass

bottomed boat ride and saw a 75 year old turtle, a 6foot stingray and

a 12 foot shark swimming beneath their feet! —Mrs Francis

DT Boxes

In DT Year 8 made some brilliant wooden boxes that combined their practical skills and CAD skills. The boxes are strong with finger joints along the edges and varnished. Year 8 made plastic lids with the lasercutter and they each designed their own handles, which were made using the 3D printer. Great work!

Karting

On Wednesday evening, Oliver, Paighton, Joe & Joe, George, Louie, Morgan, James and Ben went Go Karting. **Oliver** was the fastest with a lap time **35.80** seconds.

Kayaking

On Thursday some of the year 11s went to the Cuckmere Valley for an activity day. They had 2 challenging activities to experience, kayaking and a hike.

The kayak trip went on the river Cuckmere and pupils learnt how to paddle backwards and forwards and capsize on the water.

The hike was on the South Downs just above

Eastbourne and the view from the top of the hill was beautiful.

The activities were not easy but all pupils worked hard and got a lot of satisfaction from doing so well, all staff were very proud of their positive attitude and achievements.

Bikeability

Congratulations to Reece and Scott who have been attending weekly lessons on cycling safety, and have now achieved their Level 1 Bikeability qualification. Simon B (Care) and the assessor, Tony Nye, said, this is a really brilliant achievement.

Fresh Pasta

Some FE students learnt how to make fresh pasta in Food Tech. This week they made tagliatelle.

Inside The Volcano

On Tuesday in assembly Mr Dunlin told us about his trip to Iceland.

He showed us photographs of himself being lowered 100 metres into a volcano (don't worry, the volcano has been dormant for 4,000 years).

Photographs

If you would like to order the individual photo of your child/ grandchild, please return the envelope to Mrs Davey on Monday.
