

FE Team Building

This week FE have been involved in a lot of team building tasks, with new students coming into FE, staff thought working together on different activities would encourage students to get to know one another in a fun way. One challenge was erecting a 2 man tent independently.

Students worked in 4 different groups and were marked on how well they communicated and worked together. Another challenge was for students to plan, buy and cook a main meal and pudding, doing all of this on just one gas ring. Staff were impressed with the way students from different year groups worked as one team and that the strawberries and melted chocolate pudding was yummy.

Well done to the winners of the marshmallow and spaghetti tower building competition.
