

DofE

Last week the Duke of Edinburgh group got a new piece of kit. It is called a Kelly kettle and it is used to boil water whilst outdoors.

Oakley and Reece built a fire from sticks in the bottom of the kettle and boiled the water ready to make hot chocolate. It only took about 10 minutes, compared to a normal kettle that takes about 25 minutes.

Ms Wakeling said that this will be useful for students when they are doing their D of E expeditions, it means in cold or wet weather we can make a hot drink really quickly.

Afternoon Tea

Ben R and Louis D were part of a group of students who made afternoon tea for parents and staff at City College. Mrs Trabucchi, Mrs Wood and Mrs Grant joined them as did Ben's mum and Louis' mum and dad. The tea was fantastic!

FE Sports Instructors

This week Gemma and George from FE have been on a week of work experience as part of their BTEC Sports courses at Brighton City College.

Gemma has been working at a local gym helping with classes and also doing cleaning duties (all part of working in a gym!). She has been very lucky to also enjoy free membership this week as part of her work and has particularly enjoyed learning about kick boxing and trying out the different resistance machines.

George has been at Longhill Sports Centre which is attached to a local secondary school. He has been leading after school sessions in football and tennis and has been thoroughly enjoying getting into the workplace and doing what he enjoys best; football coaching!

Well done Gemma and George the feedback from your work has been excellent! — Ms Mundy

SIGNtific Event

Saturday
4 March

Up, Up &
Away

for ages 7 and under (1:30pm)
Second Floor Studio, Floor 2
Join us on a high-flying adventure through the clouds at this fun, interactive storytelling session. Hot air balloons, gliders and flying suits will all be explored and brought to life.

Magic Lanterns

for ages 7 and above (3:30pm)
Second Floor Studio, Floor 2
Come and join our drop-in creative light workshop, where you can build your very own lantern projector and use it to project images from the Science Museum's collection.

For more information please contact:

familyprogrammes@sciencemuseum.ac.uk

Japanese Sweets

Naomi (Care) brought in some Japanese sweets for the girls at No.34. Some of the girls were keen to try the crackers and popcorn green tea but said they were unsure about the taste. Naomi said, "It's good to try new things. Well done."

A Piece of Cake

Yesterday Schneider and Paul (Care Senior) went for a Soya Hot Chocolate and a Gluten Free cake.

Yum!

Eating Out

FE boys went for an amazing Thai meal in Brighton this week. Aayush had Duck Curry for the first time ever. He liked it!

Drama

Year 8/9 have been learning about Silent Movies in their drama lessons. They have created 4 different characters - Bully, Hero, Police Officer

and Tramp. They have been using written placards to support their story just like in the real silent movies, which had no sound. It was a good fun.

Sailing Science

Year 7 are investigating wind power this week, they investigated which shaped sail was the best to use on their boat, and used pinwheels to investigate the strength of the wind.
